A considerable number of barracks for shippard employees are located within the shippard area. The shippard is surrounded by a concrete which is three meters high. The entrance to the shippard is guarded by double sentries for purposes of checking pass cards. The shippard has the following equipment;  1. One ship's berth of old construction, 90 meters long and 30 meters wide 2. One newly constructed ship's berth; about 50 meters long and 25 meters wide 3. A floating dock of about 6,000 gross tons 4. A floating dock of about 3,000 gross tons 5. A floating dock of about 50 gross tons 6. Two pontoons or about 1,600 tons capacity 7. One pontoon crane with a 70-ton lifting power of over 100 tons 8. A pontoon crane with a 70-ton lifting powers between 2 and 35 tons 3. The war damages have been repaired, and/a large machine shop, a smaller machine	OUNTRY	Foland		REPORT
